

Rhythm
InTune
Support made personal

**A support program designed for
caregivers and people living with
rare diseases of obesity**

Rhythm InTune is your source for personalized support

Rhythm InTune provides resources, education, and information tailored to fit the unique needs of individuals living with rare diseases of obesity, including acquired hypothalamic obesity (HO), Bardet-Biedl syndrome (BBS), POMC deficiency, PCSK1 deficiency, or LEPR deficiency.

Enrolling in Rhythm InTune is voluntary, and your personal information is kept confidential in accordance with your consent.

Patient Education Managers are employees of Rhythm Pharmaceuticals and do not provide medical care or advice. We encourage you to always speak to your healthcare provider regarding your medical care.

Dedicated support

Your Patient Education Manager is your single point of contact at Rhythm InTune

Your Patient Education Manager can help you:

Access educational resources

Connect to a community

Understand insurance coverage

Get started on a Rhythm treatment

Your Patient Education Manager is ready to help you or the individual you care for along your journey.

Support when you need it

Rhythm InTune offers education and resources to guide you along your journey

- Information about rare diseases of obesity
- Opportunities to learn from others living with rare diseases of obesity
- Education on health insurance and how life events may impact coverage
- Support for patients starting or continuing on a Rhythm treatment as prescribed by your doctor
- Educational resources for building healthy habits

Talk to your Patient Education Manager for support that's tailored to your needs.

Learn from the experiences of others

Rhythm InTune connects you with educational programs that provide disease education and information about insurance coverage, as well as insight into starting a Rhythm treatment, and what to expect. You can learn from the experiences of:

Individuals living with a rare disease of obesity

Caregivers

Clinical experts

Talk to your doctor if you have questions about treatment for you or the person you care for.

Rhythm InTune offers support for individuals starting on treatment

Rhythm InTune can help you get started on treatment by:

Confirming your insurance benefits

Sharing information on the insurance approval process

Providing financial assistance to eligible patients

Rhythm InTune is committed to providing help to patients starting treatment.

Continuous support that's in sync with you

Rhythm InTune can help coordinate the delivery of your Rhythm treatment and supplies, provide injection support, and offer education or information on what to expect when starting treatment.
